

Oleksandr Sekker

FRONT END DEVELOPER

Profile

I am a software engineer with over two years of experience developing scalable and responsive web and mobile applications. I have a strong understanding of front-end development and have worked on various projects, such as an extension for online shopping, a mentorship app, and website onboarding for banks and landing websites. My passion for technology and desire to learn new skills allows me to stay up-to-date with the latest developments in the React ecosystem.

Employment History

Front end Developer, EZLOGZ, Remote

OCTOBER 2023 – MAY 2024

- Collaborated with cross-functional teams to design and develop web applications using Next and related technologies
